

Welcome to the **Oxfordshire Golf Captains** website, please make use of all the useful information which details all our events and matches for 2024, plus provides you with details of the current committee members, our history and other information to help you enjoy our association.

We had a successful year in 2023 under the guidance of Keith Henley in both our internal events and our inter-county matches with the highlight being winning both the Four Counties and Queens Jubilee.

Please help spread the word of our group within your clubs and bring as many new current and ex-captains as possible into the fold.

Just a little about me, I am originally from central London and did not move out to our area until late 1990 after relocation through work. My whole working career was focused on Telecommunications with the vast majority of that focused in mobile with O2.

Golf, I did not start playing until 2002 after too many injuries and age put any decent football appearances in the past. I have only ever been a golf club member at Badgemore Park GC in Henley where I became Captain in 2007 and joined OGC in the same year.

In 2024 we have a great calendar of events scheduled as always and do try to get along as I am sure you will have many an enjoyable day out. We have our standard internal fixtures, inter county matches and our Tour of Cornwall in May. My Captains tour this year will be in the UK at the Forest of Arden.

I look forward to playing golf and sharing a day out with as many of you throughout the year as possible. And please let me, the Committee or your Club Representative know if there is anything you feel will help our association to improve.

Lastly, I would like to thank all the Committee who make all your golfing year with the OGC possible and wish Ian Allison a wonderful year as President of OGC.

Wishing you all the best
